Motion Picture of Canada Wheat Fields Release Early 1939

WINNIPEG, Dec. 31.—"The Rimmer," a motion picture based on Canada's wheat industry, will be released in Great Britain early in 1939.

The 40-minute sound production is the second in the Canadian Wheat Board's overseas advertising campaign. "Beyond the Sunset" made last year, has been exhibited before more than half a million people and 15 prints are still in circulation.

Preview of the new film were shown in Winnipeg at conclusion of the prairie markets conference two weeks ago with several hundred prominent grain men in attendance.

"The Good Will Builder," as the board terms the picture, was photographed by a moving cameraman assigned to record the pictorial story of Canadian wheat.

NOT MUCH DIALOGUE
 Sparsely decorated with dialogue and extensively described by a

commentator, the film depicts the advance of the wheat industry in Canada and life story from soil preparation to export movement. Scenes of the historic arrival in 1842 of a few kernels of Scotch wheat consigned to David Fife of Glenora, Ont., from which he produced Red Fife—Canada's first important wheat—introduce the story of development and spread of wheat production, first in Ontario and later in the prairies.

SECOND HALF
 The second half of the picture, a gem with descriptions by an experienced farmer of climate, soil, cultivation and other factors influencing crops. Months of anxiety between sowing and harvest are brought to the screen as the camera catches farm folk gathered around radio

NO GRUMBLING 50 YEARS AGO

WINNIPEG, Dec. 31.—"We never grumbled," said Mrs. Frank Dobbie, western pioneer, in recalling the hardships of life on the prairie, at a bride, 50 years ago.

Mr. and Mrs. Dobbie celebrated their golden wedding anniversary here Dec. 18. Mr. Dobbie is a veteran of the Red rebellion and the North West Mounted Police.

watching for signs of rain. Harvest, showing modern farm machinery in operation and the huge elevators at Churchill, Vancouver, Fort William and Port Arthur, gives some idea of the vastness of the industry.

The picture rolls on with the wheat on its way to the lakehead terminals in miles of boxcars. Huge boats carry the wheat to Sault Ste. Marie, where it is transferred to canal barges bound for Montreal and the Atlantic seaboard. The picture ends with the wheat pouring into holds of ocean vessels of all nations.

The bride's house of 50 years ago was such a chilly log affair that the bridegroom threw balls of cold water over it to freeze up the cracks on the outside.

"Yes, and I ate breakfast with my feet in the oven and my plate on the stove and at that we weren't different from anybody else," said Mrs. Dobbie.

She recalled her wedding day at Sault Ste. Marie, was a beautiful day—40 below zero.

"We didn't mind," she said. "Men covered their ears in those days and women weren't afraid to tuck their curls under a fur cap."

To keep your automobile out there in the best condition for winter use, check it frequently and be sure that it has enough water.

BOMBAY MOVES TO HELP DRY

BOMBAY, India, Dec. 31.—Powers to prevent circulation in Bombay province of any newspaper or publication containing liquor advertisements are embodied in a bill which the government of Bombay proposes to introduce in the next session of the provincial legislature. The bill in furtherance of the government's prohibition policy also gives authorities adequate powers to prevent liquor smuggling into forbidden areas.

Logger Drowns

POWELL RIVER, B.C., Dec. 31.—A British Columbia police launch dragged the waters of Skechelt Inlet south of here today, for the body of Francis Pinchbeck, a logger who drowned in a fall from a boom Wednesday. Powell River is 30 miles north of Vancouver.

REVIEWING the HBC HISTORICAL MARCH of PROGRESS

144 Years In Edmonton

Here's what the new Department Store of the Hudson's Bay Company for the city of Edmonton will look like when completed in 1939. The building will incorporate the results of research into modern building structure and retail store layout. Approximately a million dollars will have been spent in the building and in the fixtures when the structure is completed. Having pride in its long association with the city of Edmonton, the Company believes that Edmonton will find genuine satisfaction in the practical expression of confidence in the future of Alberta's Capital.

THE city of Edmonton looks ahead to a year of increasing enterprise and growth, based upon the energy, resourcefulness and courage of its citizens. Edmonton moves forward from a year in which its operating debt was reduced, its public-owned utilities were improved and expanded and the city paid its way as it advanced. Strong in its own right as Alberta's focal point of population and centre of Canada's first ranking agricultural territory, Edmonton sees a new and greater future in its relationship with northern development. The administrative officers of the provincial capital extend to all citizens wishes for a new year of peace and prosperity.

Francis Bacon wrote: "Acorns were good 'til bread was found." Bread was not always the popular, economical food now enjoyed by advanced people. More efficient methods of processing wheat have increased the use of bread... extended the markets for Western Canada's grain. In this, ELECTRICITY has played a helpful part.

In the modern Edmonton Flour Mill pictured above, electrically driven equipment performs many operations incidental to the production of high grade flour. The motor shown on the right (125 H.P.) drives the equipment for such operations as elevating grain... conveying... cleaning.

Munich Pact Heads List Of Greatest News Stories In 1938

ANGLO-U.S.-CANADIAN TRADE TREATY ROYAL VISIT TO FRANCE ARAB REVOLT ARE OTHER HIGHLIGHTS

THE MUNICH PACT, and the subsequent annexation of the Sudeten areas of Czechoslovakia, will undoubtedly go down in history as the most important event of 1938. The full results of this pact may not be seen for many months and it is still a subject of controversy as to whether Prime Minister Chamberlain gained or lost by the signing of the pact.

THE ANNEXATION OF AUSTRIA by Germany marked the first important victory for Chancellor Hitler in his bid to gain control of Central Europe and also proved that Germany and Italy had agreed, temporarily at least, not to interfere with each other's expansion plans.

THE JEWISH POGROMS in Germany, and their subsequent flood of refugees, had caused wide repercussions and caused the United States to re-examine its "isolation" policy and to enter into European affairs by strength, maintaining the spirit of the Luce-Ciano agreement.

THE FAILURE OF THE FRENCH STRIKE gave Premier Edouard Daladier the power of a virtual dictator and was a serious blow to Communism in France. As a result of Premier Daladier's victory it is expected that France's rearmament program will go ahead with increasing speed.

THE ARAB REVOLT in Palestine was a serious setback to Britain's plans for the resettlement of Jews in the Holy Land. The revolt also showed that Germany and Italy were actively engaged in fomenting anti-British sentiment among the Arabs.

THE ROYAL VISIT TO FRANCE undoubtedly strengthened the bonds of friendship between France and England and gave assistance to Chamberlain's policy and still considers her as its closest ally.

THE ANGLO-U.S.-CANADIAN TRADE TREATY, signed in Washington, was a serious blow to the trade aspirations of the totalitarian countries and cemented closer relationships between Great Britain and the United States.

THE GLOBE-CIRCLING FLIGHT of Howard Hughes and members of his crew contributed more to the science of flying than any other aviation feat of 1938.

THE HURRICANE which swept the New England states taking toll of 500 lives and inflicting property damage which mounted in the millions was the worst disaster to hit the North American continent in the past years.

THE ANTI-WAR PACT, signed by Joachim von Ribbentrop, left, on behalf of Germany, and Georges Bonnet, right, on behalf of France, was hailed by many as an important step toward European appeasement.

THE RESIGNATION of Anthony Eden as British foreign secretary marked the first open disagreement with Prime Minister Chamberlain's foreign policy.

CHIEFS FOR THE ANNEXATION of Tunisia, Corsica and Nice by members of the Italian House of Deputies, in the presence of French Ambassador Francois-Poncet, put a severe strain on diplomatic relationships between Italy and France.

JAPANESE VICTORIES, marked by the fall of Canton and Hankow, were a severe setback to the forces of Chinese Generalissimo Chiang Kai-Shek and gave Japan control of one of the most industrially important sections of China.

Our
PLEDGE
of
SERVICE
To You

A HAPPY NEW YEAR

Efficient Service is our never-ending job.

We first took on the job in 1923 and we've been at it ever since. Now, 1939 is dawning, and we intend to continue giving service. It's a tough job. We can't sit back and say: "Last year's methods and equipment are good enough for this year." Night and day we must keep improving . . . anticipating the new and expanding needs of tomorrow . . . preparing to meet them.

Even on New Year's Day, when all the world seems to be eating turkey and having a good time, our men are on the job seeing that GAS continues to pour through the mains. These men make it possible for you to cook that fat turkey to a golden brown. After dinner, no matter how cold outside, you can sit in the ruddy glow of your Gas Radiantfire because our service never ceases.

Yes, giving service is a tough job . . . but, we like it, and you, too, seem to like the way we're handling it.

JOIN THE SWING TO

HEATING BY GAS

"GOOD PUBLIC SERVICE
SINCE 1923"

Gas-appliance dealers report that the past year has been outstanding in volume of sales. By your purchases, you have shown your appreciation of the new and more efficient furnace burners, ranges, water heaters, radiantfires, refrigerators and other types of GAS equipment, made available through alert manufacturers and dealers.

The hours and minutes of 1938 have clicked away. As they recede into the history books, we turn to the future . . . a future, we hope, of ever-increasing service to you—the people of Edmonton and of the Towns we serve. We thank you for your splendid co-operation and good-will. They have been an inspiration to us. A tough job . . . "Yes" . . . but, you have made it always a pleasant and happy one for us. Today, we pledge ourselves anew to serve you well. Sincerely, we wish you a **HAPPY** and **PROSPEROUS NEW YEAR**.

THIS CURIOUS WORLD

NEW YEAR'S DAY

by WILLIAM KERSUSCH

PERIODICALLY, THE INHABITANTS OF THE EARTH CELEBRATE THE BEGINNING OF A NEW YEAR... WHICH MEANS THAT WE ARE STARTING ANOTHER JOURNEY AROUND THE SUN!

MERCURY COMPLETES ITS ORBIT IN 88 DAYS! THE WORLD WAR ENDED 100 MERCURIAN YEARS AGO.

IF MARS HAS PEOPLE, THEY CAN CELEBRATE NEW YEARS ONLY ONCE EVERY 687 EARTH DAYS.

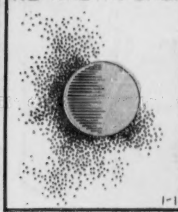

URANUS, FIRST PLANET TO BE FOUND WITH THE TELESCOPE, WAS DISCOVERED IN 1781, YET IT HAS MADE BUT ONE COMPLETE TRIP AROUND THE SUN SINCE THAT TIME.

WILLIAM KERSUSCH

LIKEWISE, ALL THE OTHER PLANETS HAVE YEARS, BUT ALL ARE DIFFERENT IN LENGTH! AN INHABITANT OF JUPITER WOULD HAVE A YEAR EQUAL TO TWELVE OF OURS.

THE EARTH HAS 165 YEARS WHILE NEPTUNE HAS ONE.

A NEW YEAR'S DAY ON PLUTO WOULD BE A REAL CAUSE FOR CELEBRATION, WITH ONLY ONE FOR EVERY 250 OF OURS.
